

STATEMENT OF SAFETY POLICY

At **Presspahn Limited**, safety is a core value and fundamental to the way we operate. As a manufacturer operating industrial machines and presses, we recognize our responsibility to provide a safe working environment for our employees, visitors, contractors, and all stakeholders.

We are committed to:

- **Protecting People:** Ensuring the health, safety, and welfare of our workforce and all those affected by our operations.
- **Managing Risks:** Identifying, assessing, and minimizing risks associated with industrial machinery and processes through robust procedures, training, and continuous improvement.
- **Promoting Safety Culture:** Encouraging active participation, accountability, and awareness at every level of the business to foster a positive and proactive safety culture.
- **Environmental Responsibility:** Minimizing the environmental impact of our operations by maintaining safe practices that protect the environment, prevent pollution, and support sustainability.
- **Compliance:** Meeting or exceeding all relevant health, safety, and environmental legislation, including regular reviews of our practices to reflect changes in law, technology, and operational needs.
- **Training and Competence:** Equipping our employees with the knowledge, skills, and tools required to work safely and responsibly around industrial equipment and production lines.

We believe that all injuries and environmental incidents are preventable. Through vigilance, teamwork, and ongoing safety and environmental efforts, we aim to maintain a workplace and operation where people, communities, and the planet are protected.
